### **Lawson Introduces Lawson S3 Requisition Center**

*New offering gives provides easy to use, web-based requisitioning capability both from your computer or your mobile device, driving improved purchasing compliance and supply chain savings.*

**Lawson Requisition Center** is a new easy to use, web-based requisitioning solution that provides a streamlined way to automate, expedite, track and simplify the requisitioning process, while increasing compliance with contracts and company standards to drive savings.

**Lawson Requisition Center** helps:

- eliminate paper based requisitioning and approval processes
- drive standardized purchasing processes
- save money by driving compliance to contracts
- bring more categories of spend under management

**Lawson Requisition Center** is

- a key enabler to achieve significant supply chain savings.
- the best way to simplify requisitioning (for Lawson customers).
  - It is designed to work with other Lawson applications
  - It is flexible enough (when combined with Procurement Punchout) to support working with external vendor content while still providing centralized control and monitoring
- enables web and mobile requisitioning to transform end-user requisitioning.

**Lawson Requisition Center** Key Capabilities:

- Web-based requisitioning
- Requisition templates
- Online requisition status tracking
- Self-service receiving
- Works with Lawson Procurement Punchout and Procurement

Lawson Requisition Center is designed for customers or prospects who do not currently own Lawson Requisitions Self-Service. New opportunities that require end-user requisitioning should include Requisition Center.
